Between The Bookends

"THE LAST OF THE JUST" By Andre Schwarz-Bart

Written by a young man who is largely self-educated, whose French was learned in the streets and whose first publication, this book, became a worldwide literary sensation, the moment it appeared. The jury that chooses France's leading literary award, the Prix Goncourt, performed the sensational act of advancing by several weeks the date of the award in order to be sure that no lesser prize went to this amazing book.

The book is a drama of Jewish suffering, martyrdom, and transfiguration which begins with a Pogrom in the 12th century, and ends in a gas chamber during World War 44. The story revolves around the ancient legend of the Just men. According to it, the world reposes upon 36 Just men, the Lamed-Vov, indistinguishable from simple mortals, often they are unaware of their station. But if just one of them were lacking, the sufferings of mankind would poison even the souls of the new-born and humanity would suffocate with a single cry. For the Lamed-Vov are the hearts of the world multiplied, and into them as into one receptacle, pour all our griefs.

This is a gripping narrative that contains human warmth, simplicity, humor and a tremendous understanding of people.

This book is available in the "Grand Count" Library.

Why I Think We Need A New Library

BY MARILYN STAMPLFY

The dictionary states that a library is a collection of books. A library is more than this. It should be a pride of our community, just like our gym.

A library can be of considerable help in the education of the youth of our community. It is also a source of continuing our adult education and pleasure.

When we see what an excellent job our librarians are doing with the facilities we now have, just imagine what could be done with a new library.

To keep up with our growing community I think we should help our library grow.

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE
FILES OF THE AVANCE OF 23 YEARS AGO

May 18, 1939

National Hospital Day was beautifully observed Friday afternoon at Mercy Hospital. Open house was the order and there were many who availed themselves of the opportunity to pay a visit to this institution on that day. Children who were born at the hospital up to five years old, and their mothers, were especially honored guests, and everywhere one looked there was mother with one or more children with her.

A number of mothers were guests of honor at a very delightful tea given by the junior members of the Ladies Auxiliary at the Golf Clubhouse Sunday afternoon. A profusion of flowers made the clubhouse most attractive for the occasion. The tea table was centered with a bowl of snapdragons, steak and wild cherry. Miss Mary Gretchen Conine presided at the tea service. A program of musical numbers rendered by the Misses Gloria Moore, Nell Welsh, Barbara Borchers and Billyann Clippert, with Mrs. C. G. Clippert as accompanist, added to the charm of the afternoon. Mrs. A. J. Joseph as president of the Auxiliary supervised the affair, assisted by Miss Jayne Keyport. Other committees follow: Program, Nell Welsh; Billyann Clippert, Decorations; Mary Jane Joseph; Invitations, Gail Welsh; Mary Gretchen Conine.

Miss Ruth Benware of C. S. T. C. M. Pleasant, spent Mother's Day visiting her parents in Fletcher.

Mrs. Henry Stephan has been in Grand Rapids for several days on business.

The group of cabins and cottages being built near the AuSable River bridge on State Street by Mr. Glen Penrod, formerly of Garden City near Detroit, promises to be an active community. They are fast approaching completion and will be known as Penrod's AuSable Cabins and Cottages.

Miss Evelyn Skingley of Detroit spent the weekend visiting her parents, Mr. and Mrs. George Skingley.

Miss Wanda Cardinal of Ann Arbor is spending two weeks visiting her parents, Mr. and Mrs. Claude Cardinal.

Mr. and Mrs. Charles David of Flint are spending a few days visiting the latter's parents, Mr. and Mrs. Egge Bugby.

Mr. and Mrs. Jerry Sherman, Mrs. James Bugby and daughters Eleonore and Jane, spent Sunday visiting relatives in Mancelona.

Mr. and Mrs. William Simpson of Romeo spent the weekend visiting the latter's mother, Mrs. Eva Wingard and sister, Mrs. A. J. Trudeau and family.

Mr. and Mrs. Holger Hanson of Saginaw were guests of the former's mother, Mrs. Marie Hanson, over the weekend.

Mr. and Mrs. Fred Catlin of Toledo, spent Friday to Sunday visiting Mrs. Catlin's parents, Mr. and Mrs. Paul Ziebell.

Wilhelm Rae has broken ground for a new residence on Michigan Avenue, on the site of the old William Woodfield property.

Fred Havens of Jackson arrived at his cottage on the South Branch Saturday. He says the water is high but he caught some nice brown trout in spite of it.

Mr. and Mrs. Arthur J. Wakeley (Mary Vance) are receiving the felicitations of friends on the birth of a daughter. The little girl born May 8 at Mercy Hospital, weighed 9 pounds and 13 ounces and will be known as Mary Jane.

The Rasmussen Lumber Co. is building a large lumber storage shed, in addition to their railroad siding warehouse.

C. M. Cody has moved his family from the house recently purchased by Algot Johnson, on US-27 to the John Harrison house on the South Side.

Miss Mabel Brasie resumed her position as clerk in the Kraus Dry Goods store Monday. Miss Brasie is recovered from an injury she received over a year ago, when she fell and had the misfortune to break her leg. Her friends are glad to have her back in her old stand at the store, where she has been employed for close to 25 years.

James Bugby, Fred Bishaw and

Wilbur Swanson left one day last week for Chicago, where they will work on the boats on the lakes for the summer.

Grayling High School split a pair of baseball games over the weekend, winning from Mancelona 10 - 2 Friday to clinch the Southern championship title of the league, and losing out to Alpena on Saturday to the tune of 8 - 3.

Mr. and Mrs. Ben Garland of Beaver Creek are entertaining the former's father, Dr. Garland, who arrived here a couple of weeks ago from England.

Mr. and Mrs. Francis Nephew, Mr. and Mrs. Elmo Nephew, Mrs. Cora Nephew, and Miss Iris Nephew of Lovells visited Mr. and Mrs. Glen Gregg a few days at Kalkaska. Miss Iris stayed to visit Mrs. Gregg for two weeks.

Miss Helen Cody is the new clerk at the Grayling Bakery. Miss Martelle Isen is the new bookkeeper at Rehkopf's Plumbing shop.

Capt. John Spielman of Grand Rapids has arrived for the summer and named the Officers Clubhouse at Lake Margrethe.

Mr. and Mrs. Elmer Rasmussen, daughter Shirley and son Ralph of Marquette, were Sunday guests of the parents, the Adam Clarks and the Peter Rasmussens.

46 YEARS AGO
May 18, 1916

One of the most interesting entertainments given in Grayling in a long time was the gymnastic and play exhibition in the school gymnasium Friday evening. This was given by the pupils from several of the grades, and was under the direction of instructor L. C. Bungeard. Every part of the program merited applause and not only entertained the audience but inspired them with great interest in this branch of the work that is going on in our schools. It really is remarkable what Mr. Bungeard has accomplished in the few weeks he has been in charge, and the people consider this as a splendid addition to our school system.

James Thompson, M. & N. E. state agent at the local station, landed rainbow trout Sunday that will hold the record for catches in the local streams for the season. The fish weighed seven pounds and six ounces and measured 28½ inches. This was caught near the bridge of the Manistee River. It was only by tiring it out after a two-hour battle that he finally landed it.

John Benson has opened his garage, the one recently conducted by the Grayling Machinery Repair Company, and is now ready for business.

Leo Gaffney of Roscommon is credited with landing a big trout last week while fishing in the South Branch of the AuSable. It measured 17½ inches.

Miss Augusta Kraus and party of friends spent the weekend at Bid-A-Wee cottage, Portage Lake.

George Sorenson purchased the residence of Mrs. J. S. Woodburn on Ogema Street, and is moving his family into same this week. Mrs. Sarah Dekett and Fred

REPORT from LANSING

ROSS O. STEVENS
Your State Representative
(Presque Isle District)

The Legislature has completed nearly all of its important work except tax and appropriation bills. Now that the income tax issue has been tabled, ideas are beginning to jell. Within a few days, a partial picture should be forthcoming. The House of Representatives is waiting on Senate tax packages. In the meantime, House leaders are mulling over various tax programs so that in case the Senate runs into further complications, we will be able to come up with a tax program on fairly short notice.

The past two years have been very interesting. First legislators devote a great deal of their time

Parker were quietly married at the home of the former on Wednesday evening. Rev. Terhune of Frederic officiated.

Guy Peterson is the new clerk at the M. Simpson Estate grocery, and Earl Hewitt, who formerly worked there is now driving dray for the local express company.

Frank Shanahan is assisting in the Lewis Drug store as soda dispenser during the absence of Howard Granger, who is taking a week's vacation.

At the last meeting of the Citizens band the resignation of C. O. McCullough as president and business manager, which he has successfully held for many years, was finally accepted, with much regret. Allen B. Failing was elected as his successor.

Miss Mabel Brasie left on a business trip to her old home in North Branch, Tuesday, and expected to be gone until Sunday.

The all, slender Lombardy trees that for many years bordered the beautiful Nels Michelson home on Peninsula Avenue have, during the forepart of the week, been cut down and hauled away. There were 23 in number and reached approximately 50 feet in height.

Earl Madsen, after spending the winter here, left Wednesday for Montana, where he expects to remain indefinitely.

learning procedures, finding out who is who, and in getting a broad scope of state operations.

The Republican side of the Legislature has had its problems because of illness. A few weeks ago, Representative Gail Handy rejoined us after an extended illness. Now we are short again. Representative Fred Olson of Sheridan is the most recent member to visit the hospital. We hope his condition is not serious.

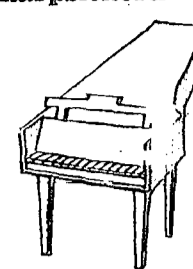

Today, Wednesday, May 2nd, we are discussing the bill to outlaw communism in Michigan, which passed both the House and Senate and which was vetoed by Governor Swainson. Our effort here will be to override the Governor's veto. The American Civil Liberties Union, a left wing organization, has been pushing the Governor on this matter. It will require a two-thirds vote in both the House and Senate to override the veto, an almost impossibility in the House of Representatives. We have 56 Republicans as against 54 Democrats. This means that almost a man, will vote to uphold Governor Swainson. The vote: 54-41.

What's In A Name

Little wonder the public is becoming confused by the steadily increasing number of new names, models, sizes and options being offered in new cars.

As if the situation wasn't bad enough, there are a whole new series of names now descending on us in the form of 1962 1/2 models. To the "old" names like Polara, Nova, Skylark, Monza, Cutlass, Grand Prix, Camaro and others are to be added such names as Wildcat, Coronado, Monterey, S55, Meteor S33, Spyder, Monte Carlo, SP100 and Jetfire.

An automotive trade paper recently explained the whole thing in a cartoon. A salesman is talking to a purchaser and he says:

"This model is halfway between our deluxe and medium-price models, and in between our compact and low-priced regular-size sedan, but midway, economy-wise, between the deluxe compact and the medium-priced first-line models."

We hope this doesn't leave you as confused as a group of ladies recently polled by a financial paper on their automotive knowledge. They thought that a brake drum was used by musicians, that radiator hose was a brand of nylon and that the police should do something about universal joints.

Names and styles and options will continue to change. Sometimes like the hemlines on women's skirts, for no apparent reason. But the names that stay, and the dealers who service them, will be those that acquire and keep customers' loyalty through quality performance. A purchaser soon tires of a new chrome strip or fender contour, but the memory of reliable service lingers long.

Warm Weather Months Bring Special Problems To Motoring Public

WARM WEATHER MONTHS pose very special problems to motorists.

In addition to the increase in auto traffic, the strain of driving during warm temperatures, and the glare of pavement from the sun, children become major hazards on the roadways, according to State Police Commissioner Joseph A. Childs.

Bicycle riding is a favorite youthful pastime from the first sign of spring to the first snow. On a bicycle a youth can forget his cares and be carried away with the power he controls.

This carefree attitude of many a bicyclist is the major concern of State Police, where traffic is involved.

During 1961, State Police records showed 29 persons were killed in car-bicycle accidents and another 1,847 were injured. A total of 2,302 accidents of this type were reported during the year.

"The principal contributing causes of bicycle accidents include violations of law," Childs said. "Others were entering the roadway without stopping, sudden starting or stopping, or riding double on a single-seated bicycle. The violations which caused accidents included disregarding stop signs, which apply to bike riders as well as operators of motor vehicles, and riding at night without proper lighting on the bicycle."

The burden of prevention of car-bike accidents lies on three parties, Childs said. "Bike riders, parents and motorists should all be concerned about it," said Childs.

Childs points out three reminders, one for each of the parties concerned, which could help lessen chances for auto-bicycle crashes.

Bicyclists should obey all traffic laws and signs. Parents should oversee bicycle use and restrict it when children violate laws or safe practices. Finally, motorists should be extra cautious when near bike riders, constantly alert for the unpredictable actions of some of them.

Historical Museums and Landmarks greatly increase the tourist potential of a community.

Solon Weeks, director of the State Historical Museum at Lansing, reports that a recent study showed 87 per cent of the tourists are drawn to the state by historical and scenic attractions.

This type of tourist venture can also be a money-making one, according to statistics compiled by the U. S. Department of Commerce. Weeks said the study indicated 28 tourists a day visiting a town with a historical museum or other attraction would bring in as much revenue as a new industry with an annual payroll of \$100,000.

The theory advanced by Weeks gains full support of at least one man who should know.

Dr. Eugene P. Peterson, director of historical projects for the Mackinac Island State Park Commission, says a total of 330,000 tourists visited Fort Michilimackinac and Mackinac Island State Park last year. This was very favorable compared with the estimated 400,000 tourists who annually visit the colonial village at Williamsburg, Va.

Michigan Now Boasts at least two major accomplishments in highway construction.

The state has led the nation for two years in interstate freeway construction. Now, a milestone has been reached in the history of state highways: every mile of state highway has been paved.

Less than five years ago, more than 800 miles of state highways were gravel covered. In the years since this mileage has been cut down in lots of hundreds of miles.

Just recently, however, the last contract was awarded for the modernization of the last gravel road, an 18 mile stretch of route M-48 in Chippewa county in the Upper Peninsula.

Crawford County Boat Registrations Rise

Michigan boat statistics released this week show that Crawford County now has 521 registered motorboats, an increase of 74 above last year's total.

According to Secretary of State James M. Hare, 431,014 motorboat certificates are now in the hands of marine enthusiasts using Michigan waters.

"As the summer vacation season nears we expect many new applications," Hare said. "We hope that those who are purchasing new

watercraft register at once to avoid the June rush period. If new boat owners cooperate by registering early, we can process their applications promptly and get their boat numbers back to them within a few days."

Under recently enacted Federal and State laws, a 50 state uniform registry plan was established under which each state retained the authority and responsibility for the registration of all boats using its waters.

Purchasers of old or new watercraft can obtain boat registration application forms at most marinas, water sport shops, sheriff's offices

and branches of the Michigan Department of State. The current license, good until December 31, 1962, costs \$2.00.

To conform with a nationwide system set by Federal regulations, registered motorboats are numbered in a sequence of two letters, four numbers and then two more letters, such as MC-1234-AA. MC is the Federal designation for Michigan, and the numbers and final letters are the boat's number.

"Thus no two boats in the United States carry the same letter-number combination on their bow," Hare says. "This makes for easy identification no matter where the boat may be in American inland or coastal waters."
